

Instructions And Barber Shop Floor Plan
Please Read Carefully

SHOP SKETCH: Identify rooms/areas by name and measurements on diagram indicating the work area, back bars, chairs, shampoo bowls, exposures, ventilation, restroom, facilities, storage and reception areas and any other feature that is present. Indicate the barber establishment area in relation to the surrounding area if in a commercial building location.

NOTE: Shop owners please identify if the establishment is entirely booth rental, partial, or designate the stations, which are used for booth rental purposes.

BARBER SHOP-COSMETOLOGY SALON: If a barber shop and cosmetology salon occupies the same location, please identify the proposed barber practical work area within the structure by outlining the barber and cosmetology areas in different colored inks. The barber practical work area shall be visually distinct from the other and shall be clearly identified as such to the public by a sign.

TOILET FACILITIES: A barber shop shall have toilet facilities, which shall be located on shop premises except for a barber shop located in a commercial building in which public toilet facilities area available and reasonably accessible directly from the public thoroughfare.

SHOP SKETCH

If you have a current/legible sketch of the establishment, submit a copy and omit this task.
